> Maintains WordPress websites and uses Excel analysis, Google tools and AI to support marketing.

Work Experience

Marketing Officer

PSI Marketing Co., Ltd. | Aug 2022 - Present

Campaign strategy and planning

Plan campaigns, promotions and communication around product priorities, target audiences and marketing objectives.

Develop creative concepts and campaign key messages, translating them into content and assets for each channel.

Personas, positioning and competitor research

Analyse product features, selling points and customers to define personas and positioning; research competitor products, pricing, promotions and messaging to inform campaigns.

Copywriting, content creation and Meta

Plan content and write marketing copy; create graphics and promotional assets around products and target audiences.

Manage publishing on Facebook, Instagram and YouTube, adapting copy and creative materials to each channel.

Data analysis and Google tools

Compile and analyse Excel data; report marketing and operational results to evaluate performance, identify trends and refine campaign plans.

Maintain Merchant Center and Google Tag to support product information and website tracking.

AI for marketing workflows

Use ChatGPT, Claude, Codex, Claude Code and Cowork with skills and automation for content, websites, data and repetitive tasks.

WordPress and website storytelling

Update WordPress CMS, products and SKU data; design and publish chapter-style landing pages such as "In Music", arranging content and visuals.

Supporting e-commerce responsibilities

Shopify · Manage storefront and back-office operations: products, catalogue, variants, inventory, orders and promotions.

YouTube Shopping / YouTube Merch · Add and manage merchandise product listings for artists.

Personal Projects

KuroStreetSIM · Tracked usage with GA4: approximately 7,700 active users and 67,000 views in the latest 30-day report.

FRIEND FIGHT · Developed a game with AI to learn and play with friends.
